# Database week 5 Answers

Assignment 1: SQL

Use the following ER-diagram to answer the questions.

1. Show all the tutors that are available for help online.
2. Show a list of clients whose name end with " van der Meulen".
3. Show all tutors that have used a laptop as a resource during their sessions. Use a subquery.
4. Write a query that changes the isPaid status of all the invoices after March 22nd of 2022 to TRUE.
5. Show all clients that have not booked a session yet.
6. Write the query that can create the **SESSION** table.
7. Show a list of all clients that have a session with a tutor that is online right now. The list should have the names of client and tutor and the phone numbers of client and tutor.
